Re: Application Serial No 09/470,446 and Application Serial No. 09/905,349

Dear Mr. Zervigon

Please find attached form PTOL-413A regarding the application we discussed on the phone this morning (09/470,446). We have also attached an interview request for the CIP application (09/905,349) which is currently under a final action. We would appreciate the opportunity to discuss the interpretation of teachings of the Ohashi reference in regards to the CIP application. If convenient for you, we could do this immediately following the discussion in regards to 09/470,446. If you would prefer to do the CIP interview at another time, please call or e-mail me. Thank you for your consideration.

Regards,

Michael Van Loy

☐ Continuation Sheet Attached

Brief Description of Arguments to be Presented:

Applicant and Examiner disagree on the function of the upper portions of 41 in Figure 4 and of 61 in Figure 6 of Ohashi. The Examiner contends that these are "flow dividers" while Applicant maintains that these elements merely control flow velocity in a single container without "dividing."

An interview was conducted on the above-identified application on _____.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
